Nationwide for
Reliable Truck
Relocation and
Float Transport

Delivering Vehicles with Precision, Safety and National Reach

Victorian Truck Movers Pty Ltd is a national logistics company specialising in vehicle relocation and float transport.

Our core business is relocating unregistered vehicles and trailers with our extensive fleet of trade plates. This enables us to deliver vehicles legally, safely and efficiently across Australia. Leading fleets, dealers and government agencies rely on us for this service, with every move fully insured for peace of mind.

We provide flexible, efficient transport solutions for fleet managers, hire companies, manufacturers and government bodies. We relocate everything from light vehicles to B-doubles and road trains, using our national driver network. We also operate a dedicated truck and float service for vehicles that require transport. Our team brings decades of experience, industry compliance and safety leadership to every job.

We deliver end-to-end truck relocation and transport, backed by 30 years of experience, with a strong focus on safety, reliability and national service coverage.

Nationwide Coverage

We operate across Australia, reaching metro, regional, and remote locations with equal efficiency. Our scale allows us to deliver consistent service levels wherever our clients require vehicles moved.

Diverse Client Base

We work with manufacturers, fleet providers, government agencies, and contractors, tailoring our services to suit specific operational needs and industry requirements.

Why Leading Fleets Trust VTM for Transport That Delivers

Flexible, Scalable Relocation Model

Clients choose us because we provide certainty and peace of mind. We provide certainty that vehicles and equipment arrive safely and on time. Clients only pay for the services they need, when they need them.

Specialist Float Service

Whether you need urgent float transport or regular relocations for new fleet rollouts, we tailor our service to your exact needs and build long-term trust through every move. Our Truck Transport Float service moves trucks, utes and commercial vehicles securely to project sites, ideal for unregistered or immobilised vehicles.

Trusted by Major Clients

Our relocation model is trusted by truck dealers and contractors who don't have time to manage multiple subcontractors. We handle every detail from pickup to delivery including unregistered vehicle movements using our own trade plates. That means less admin for you and more confidence that it's handled properly.

Safety, Visibility, GPS Tracking & Compliance

We take time to understand your business, your process and your priorities. We don't do one-size-fits-all logistics; we deliver a service tailored to your needs, supported by GPS-tracked fleets, NHVR compliance, fully licensed operators, and strict fatigue management and dangerous goods protocols.

From single truck jobs to national fleet rollouts, we provide compliance, control and transparency—powered by data, experience and proven operational systems.

OUR SERVICES

Flexible Relocation & Transport Storage Services for Every Vehicle Type

We provide a comprehensive range of transport, relocation, and secure storage services tailored to commercial operators, fleet managers, and government agencies. Whether relocating a bus or ute, transporting an unregistered truck on a float, or safeguarding vehicles in our storage facilities, we deliver compliant, nationwide solutions with precision, care, and complete asset protection.

We offer secure short- and long-term vehicle storage, safeguarding assets until they're ready for relocation anywhere in Australia.

Drive Away Vehicle Relocation

We relocate unregistered vehicles and trailers using trade plates, as well as registered vehicles under driver control by our nationwide MC-licensed team. This includes cars, vans, trucks, buses and road trains. Our drivers are skilled in long-distance travel, site access and compliance procedures, ensuring smooth and dependable relocations from depots, dealerships and project sites across Australia.

Trailer & Equipment Relocation

We move trailers, dollies and equipment between locations. Perfect for auction houses and depot transfers, this service covers a range of logistics scenarios, from multi-unit trailer movements to specialised equipment relocation for construction and industrial clients. Safety and precision underpin every transfer.

Float Transport Service

Our trailers and float services transport unregistered or immobile vehicles—including light trucks, dual cabs, water carts and buses. We manage compliance, safety and scheduling to provide a dependable solution for vehicles that cannot be driven. Ideal for delivery to worksites, maintenance facilities or auction houses.

Government & Defence Logistics

We are experienced in handling vehicle logistics for state, local and federal government clients including defence agencies. Our team is familiar with security clearance processes, compliance reporting and documentation requirements for government fleets, ensuring efficient and confidential service delivery every time.

Fleet & Hire Vehicle Relocation

We relocate hire fleets in and out of project sites. We partner with rental and fleet providers to simplify logistics, ensure prompt turnaround, and minimise vehicle downtime. Our streamlined processes support large-scale handovers, seasonal fleet changes and new project mobilisations.

MSIC Shipping & Wharf Services

We hold MSIC certification and offer delivery to/from ports, including international handover points. Our team manages vehicle movements within secure port zones and coordinates with freight forwarders and customs agents to streamline cross-border logistics, ensuring vehicles arrive on time and in compliance with maritime protocols.

Supporting Australia's Most Demanding Sectors with Reliable Vehicle Logistics

We deliver your vehicles to sites, ports, depots and anywhere in between—on time, fully insured and ready to perform for your operations.

Transport & Logistics

Victorian Truck Movers delivers vehicles and equipment right across Australia, bridging gaps where relocations are often fragmented or unreliable. We offer dependable end-to-end movement solutions that ensure equipment shows up on time without logistical headaches.

Government & Defence

Government and defence organisations require suppliers with security clearances, safety systems and proven reliability. We meet complex compliance requirements and provide stress-free movement of vehicles and equipment with full transparency and risk mitigation.

Renewables (Wind & Solar)

Wind and solar projects rely on the safe and timely delivery of vehicles, site utes and hire equipment. We provide dependable interstate and regional delivery solutions that remove delays and help contractors stay on schedule.

Auction, Dealer & OEM Networks

Vehicle dealers, OEMs and auction houses need to move new and used stock around Australia. We relocate unregistered vehicles legally and safely using our own trade plates, freeing up clients from registration delays, streamlining their sales.

Mining & Resources

We deliver vehicles and equipment to remote and regional mine sites across Australia's mining sector. We specialise in time-sensitive mine site deliveries, reducing operational downtime and ensuring site-readiness.

Hire & Rental Fleet Services

Hire companies need fleet moved fast, often between multiple depots or job sites. We work closely with national hire brands to manage this process efficiently, reducing idle time, cutting delays and protecting reputations.

SAFETY, QUALITY + ENVIRONMENT

Safety and Compliance Without Compromise

At Victorian Truck Movers, safety and compliance are built into everything we do. All operators hold MC licences, are Dangerous Goods certified, and follow strict NHVR fatigue protocols. Vehicles are GPS-tracked in real time and undergo pre-trip and post-delivery inspections to ensure integrity at every stage.

With over 100 VTM-issued trade plates, we can move unregistered vehicles legally and safely across states. We also hold full Public Liability, Transit, Marine and Workers Compensation insurance and our team has MSIC port access certification, making us fully prepared for secure freight movements through major ports.

COMMUNITY ENGAGEMENT

Driving Community Connection and Wellbeing

We proudly sponsor Healthy Heads in Trucks & Sheds, supporting the mental health and wellbeing of the people who keep Australia moving. As a regional operator with national reach, we understand the value of community and connection.

Our team actively supports local businesses and charities in Wagga Wagga and beyond. This commitment to people and place makes us not only a compliant supplier but a socially responsible one.

CASE STUDY

High-Volume Truck Relocation

In just three days, VTM relocated 160 trucks, completing the project ahead of a tight one-week deadline and earning preferred supplier status.

The Challenge

Our client required 160 trucks moved from one storage yard to another within one week. Missing the timeframe risked operational congestion. This was a high-volume, time-sensitive relocation project with little margin for error.

Our Solution

NSW Operations Manager David and VIC Operations Manager Tim designed a strategic plan around existing commitments. They selected the best team, allocated tasks clearly, and fostered strong collaboration to ensure efficiency and consistency under pressure.

The Result

We completed the relocation in just three days, exceeding expectations. The client has since engaged us as their preferred supplier for both metro and nationwide relocations.

**We move fast, work smart, and
get the job done—relocating high
volumes on tight deadlines while
maintaining quality and reliability.**
